Dear Sirs

FOVAC FSP SYNTHETIC HIGH TEMPERATURE CHAIN OIL

We are manufacturer of high quality aluminum casting parts and we have a drying oven for painted parts operating at 250°C.

We have tested many types of synthetic chain oils before and now very satisfied with the performance of your FOVAC FSP Synthetic High Temperature Chain Oil.

We find that your product is very long lasting with reduced carbonization on the chains. Besides, it has also saved us countless hours in downtime and reducing our inventory cost.

We highly commend your Sales Manager, Mr Andy Chong to have recommended this product to us.

Thanking you.

Yours faithfully
