TO WHOM IT MAY CONCERN

I am the Chief Engineer in Intercontinental Specialty Fats Sdn Bhd (Dengkil). Our company is one of the leading specialty fats and oil manufacturers in Malaysia. We produce specialty fats and distribute to chocolate, confectionaries, bakeries, snack foods and ice-cream factories.

We have been using FOVAC products supplied by Ferrovic Corporation (M) Sdn Bhd for the past years and we are very satisfied with their food grade grease and lubricants range of products. FOVAC products have been effective and produced cost savings for our production.

Mr Andy Chong, Marketing Executive of Ferrovic has also recommended us to Delimon DS Automatic Grease Lubricator Pumps made in Germany to our production lines, namely :

1. Combinator (Germany)
2. Butter Machine (Banhill)

With the installation of Delimon DS pumps, we have solved our problems of frequent bearings failure due to inadequate and inconsistent greasing. Our management is very pleased to note the significant cost savings in our machineries breakdown and production have subsequently increased.

We highly recommend FOVAC range of food grade grease and lubricants and Delimon DS Automatic Grease Lubricator Pumps to other potential users.

Yours truly

CHIA AH FATT
Chief Engineer
